

# The History of Printing

## Solution:

1. Wood block printing.
2. In 1346. Only two colours could be used then.
3. Printing with moveable types.
4. Johannes Gensfleisch zur Laden zum Gutenberg.
5. He was born around 1450 in Mainz, Germany.
6. He printed 180 bibles.
7. Aloys Senefelder (1771 – 1834). It's a method for printing on smooth surfaces.
8. These regimes used various kinds of print media, mainly newspaper, pamphlets, and posters.
9. Radio, cinema (e.g. "Die Deutsche Wochenschau" in Nazi Germany before every feature film) and later television and of course social media. Reliable Print media is still very important for a properly functioning democracy.
